Celebrate the start of the season with Bayport Flower Houses! Discover tips for Poinsettia care, explore new varieties, and relive the fun of our Holiday Open House. Plus, enjoy exclusive classes, special coupons, and all the festive inspiration you need to make this holiday season bright!

A LETTER FROM THE Greenhouses

*“It’s beginning to look
a lot like Christmas...”*

You’ve probably heard that tune countless times during the holiday season, but here at Bayport Flower Houses, it’s truly starting to feel like Christmas! Our dedicated retail team has been hard at work creating stunning holiday displays, and we couldn’t be more excited to share them with you.

Our signature Poinsettias—always a highlight of the season—are now in full bloom from our greenhouses. Whether you’re looking for vibrant reds, soft pinks, classic whites, or beautiful bi-color varieties, we have the perfect Poinsettia to bring warmth and color to your home this holiday season. This year, we’re also showcasing some of the newest varieties you chose during last year’s open house trials. Trust us, they’re absolutely stunning! Truly out of this world!

Now, you might be wondering: why is the Poinsettia the traditional Christmas plant? The story dates back to the late 1800s when

Joel Poinsett, a U.S. Ambassador to Mexico and a Texas native, brought a vibrant red plant back to the U.S. for Christmas. That plant? The Poinsettia! Interestingly, despite its association with the cold winter months, the Poinsettia is actually a type of Euphorbia, a cousin of the cactus, and thrives in tropical and sub-tropical climates. And, of course, it’s named after Joel Poinsett himself—Poinsett(ia)!

We love seeing our customers during the holidays, so please don’t be a stranger! There’s nothing that brings us more joy than welcoming you to browse our selection of beautiful holiday décor, stunning Poinsettias, and our thoughtfully designed holiday specialties, including centerpieces, wreaths, porch pots, and more.

We also have plenty of holiday events, classes, sales, and specials coming up. I’m especially looking forward to our Christmas Tree lighting on December 7th!

Karl teaching our holiday porch pot classes.

Christine teaching our design series workshop classes.

Of course, we can’t forget the best holiday in November—Thanksgiving! It’s a time to reflect on what we’re thankful for and enjoy some delicious home-cooked meals with family and friends. We have a wide selection of floral centerpieces and arrangements that will add an extra touch of beauty to your Thanksgiving table.

As I reflect on all that I’m grateful for this holiday season, I feel so thankful for our incredible employees, loyal customers, and the wonderful community Bayport Flower Houses has been part of since 1932.

From all of us here at Bayport Flower Houses, we wish you a very happy and joyful Thanksgiving!

All the best,

John Auwaerter

Joyful Elegance

Home Grown Poinsettias

And the winner is...

Thank you all for voting on your favorite poinsettia variety at our Open House. Your votes help us work with our growers to decide on what to grow for future seasons! And for those who have or are planning to pick up a Poinsettia this season, here's how to keep yours looking merry and bright:

- Light It Right:** Place your poinsettia in bright, indirect light, away from cold drafts or direct heat.
- Water Wisely:** Water only when the soil feels dry to the touch. Be sure to drain any excess water to prevent root rot.
- Warm and Cozy:** Poinsettias thrive in temperatures between 60-70°F. Avoid chilly windows or hot spots near heaters.

With a little love, your poinsettia will stay stunning all season long—perfect for spreading holiday joy!

O Christmas Tree!

TIPS TO KEEP YOUR TREE FRESH AND FABULOUS ALL SEASON LONG

A fresh-cut Christmas tree can bring the magic of the season into your home with its vibrant greenery and festive aroma. To make sure your tree stays fresh and beautiful throughout the holidays, follow these simple care tips!

Pick the Perfect Tree

Choose a tree that feels fresh to the touch. Look for soft, flexible needles that don't fall off when gently tugged. A healthy tree will have a vibrant green color and that unmistakable evergreen scent.

Setting Up Your Tree

Before you bring your tree home, our expert staff will make a fresh cut at the base—about half an inch—so it can absorb water more easily. When your tree gets home put it in water right away to keep the trunk from sealing up.

Set your tree up in a spot away from heat sources like radiators, fireplaces, and direct sunlight. Heat can dry it out quickly, leaving it brittle and dull.

Keep It Hydrated

Water is your tree's best friend! Fill the tree stand with fresh water as soon as you set it up, and make

sure it's never empty. A tree can drink up to a gallon of water in the first 24 hours, so check the water level daily. You can also use X...

Decorate with Care

When adding lights, opt for LED like X that emit less heat. This will prevent drying out the branches. Secure ornaments carefully using X to avoid damaging the needles or branches.

With these easy tips, your Christmas tree will stay fresh and beautiful all season long, becoming the perfect centerpiece for your holiday memories. Happy decorating!

EMPLOYEE SPOTLIGHT

Luis Vazquez

LEAD GREENHOUSE TECHNICIAN

Growing With Us Since 1994

Luis is the dedicated lead caretaker of our overwintering houseplant program at Bayport Flower Houses, where we lovingly care for customers' plants during the winter months until they can thrive outdoors again in the summer. Over the past 30 years, Luis has become an integral part of our team. His expertise and commitment ensure that every plant in our care is healthy and ready to flourish when the seasons change. We're so grateful to have Luis's green thumb and years of experience bringing life to our greenhouse!

Tell us about when you started at Bayport Flower Houses...

In 1994 I was working at another greenhouse property and they closed. Karl was visiting the property

to buy some of the greenhouse supplies from Richard, the previous owner. While buying supplies, Karl asked Richard if any of his previous employees would be interested in a job at Bayport Flower Houses. I started not too long after that. Now I've been here for 30 years! I started taking care of the rose crop at the beginning. Then I began helping tend the greenhouse, overseeing customers' houseplants we overwinter in our greenhouses as assistant manager. Today I am the lead caretaker of the overwintering plants.

What is your favorite blooming shrub?

I love Gardenias and Rhododendrons.

What is your favorite annual?

My favorite annual is Marigolds, I love all colors of them.

What is your favorite season at BFH?

I like the Summer! Being from Puerto Rico I love the heat.
